

SAT vs ACT

Many students and parents begin the college prep process by comparing the ACT and SAT. Two of the most common questions they ask are:

- Is the ACT easier than the SAT?
- Do colleges prefer scores from the SAT or ACT?

The SAT and ACT generally test the same types of content. Both ACT and SAT scores are used for college admissions and merit-based scholarships. The biggest differences between the tests are that the ACT has a Science Test, and there's one SAT Math Section for which you cannot use a calculator.

ACT versus SAT: How do I choose?

The best way to decide if the SAT or ACT is right for you is to take a timed full-length practice test in each. Since the content and style of the SAT and ACT are very similar, factors like how you handle time pressure and what types of questions you find most challenging can help you determine which test is a better fit.
